# **Topics**

- -Automatic Machinery
- -Components

#### **Automatic Machinery New products**

■ Pharmaceutical Packaging Machine for the China Pharmaceutical Market

Order for 2 units in 1H. FY2021

January 2022: Second China-exclusive model to be launched

FBP-300W Capacity: 3,000 tablets/min

Increase capacity while maintaining the FBP-300W development concept

Japanese Quality Achieved by Local Production in China

■ IS-UVCL01 Transparent Object Inspection System

Launched March 2021

the "Cho" Monozukuri Award

# Winner of the Health Care Bio-Medical Component Award

- The use of special light sources enables visualization of transparent objects
- Sales of inspection modules that are not limited to their applications

**Expand new markets with new products** 

## Components Increase production capacity (1)

#### ■ Tohoku Plant

Fluid control components

Completed clean room expansion at the end of August

#### ■ Kasugai Plant

Fluid control components

**Enhancement Assembly/Processing lines** 

#### ■ Yokkaichi Plant

**Pneumatic components** 

Completed expansion of automatic assembly line facilities

#### ■ China Plant

Electric components / Pneumatic components

**Enhancement Assembly line** 

Promoting production enhancement to meet strong demand and establishing a stable production system

#### Components Increase production capacity (2)

#### New North American Plant

Current

September, 2020 Acquisition of real property Office area under construction

December 2021
Production Area Scheduled

March 2022 Scheduled for completion

Preparations are underway for completion in March 2022, following delays caused by COVID-19

#### Components Increase production capacity (3)

■ Thailand Plant (CKD Thai Corporation)

Location :AMATA Industrial Complex, Chonburi Province

Real Estate: Acquired November 2021

Acquisition: 1.1 billion yen

Operation schedule : February 2022

Adjacent to existing plant

Product : Flui

: Fluid control components (general purpose)

Mass production of fluid control components and production enhancement as a global parts supply base

# **Initiatives to Enhance Corporate Value**

- Business Growth
- ESG Engagements

#### **Business Growth**

#### Increase in sales scale

High value added products and services

Expansion of overseas sales

# **Business Growth**

#### Investing for the next step

Aggressive factory construction and equipment enhancement

System investment and human resource development

# Improving profits through quality and quantity

Product development utilizing core technologies and strengths

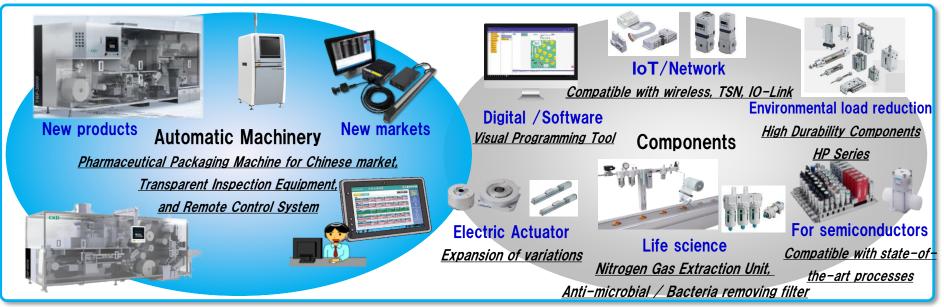

Increased productivity through automation and labor saving

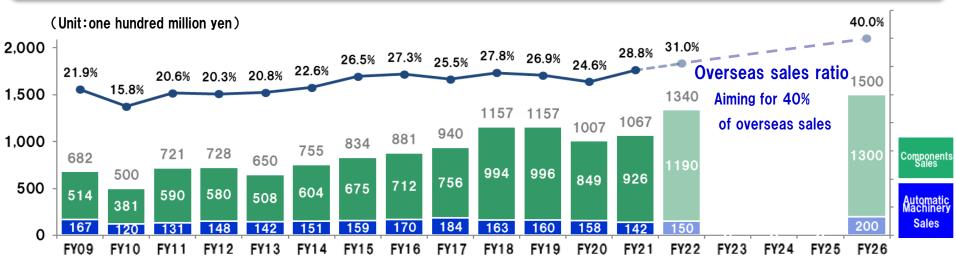

Management practices focused on ESG (Environment, Society, and Governance)

Advancing Digitization and Achieving Sustainability

Increase profits by quality and quantity in addition to sales

#### Increase in sales scale

Providing total FA solutions with high value-added products and services

#### Improving profits through quality and quantity (1)

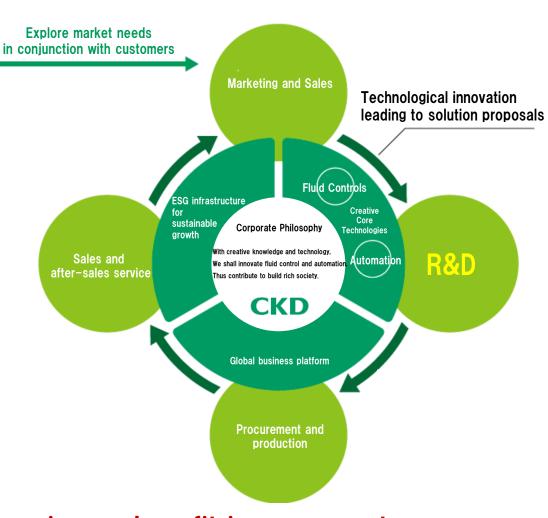

■ Product development that takes advantage of core technologies and strengths

Development project system Quality assurance

# [Differentiated products] - Making use of strengths (High precision, High durability) - Unitization/Systematization - Digital/ Software/ Network

Promote market expansion and profit improvement through differentiated products

#### Improving profits through quality and quantity (2)

| Automation Advanced "people-friendly" factory

**Automated warehouse** 

**Automatic cleaning** 

Automatic processing machine Automated assembly line

Labor-Saving Increase production at existing plants and ensure quality

Automatic winding machine Automatic processing machine

Semi-Automatic Assembly machine

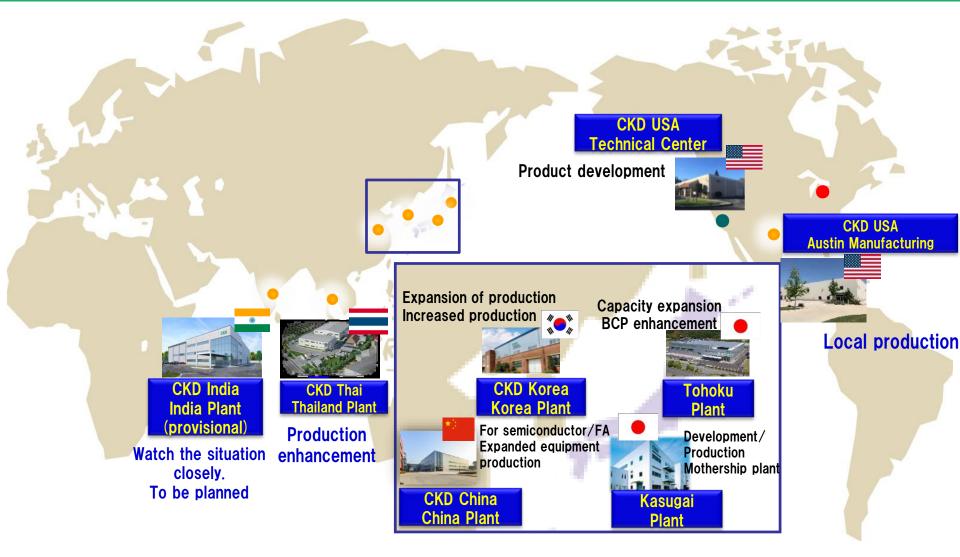

**Automatic** dimension inspection

**Automatic visual** inspection

Increase productivity through automation and labor-saving

#### Investing for the next step

Implement aggressive capital investment for the next phase in response to growing demand

#### ESG Engagements (1)

- Sustainability Promotion System
- Established "Sustainability Committee" and "Sustainability Promotion Department" to contribute to the global environment and the creation of a prosperous society through our business activities.

- SDGs promotion
- Offer ESG information and so on.

**Board of Directors** Report **Sustainability Committee Decision** Information External Promote Sustainability Promotion **Stakeholders** Components Business Department Report

Promotion of women's achievements

Action plan period

April 1. 2021 - March 31. 2023 (2 years)

Goals

35

3% of women's management by FY2022

Average of 65% or more of all employees taking paid vacations

Training for women's employees

on-site day-care center 'Ohana nursery school"

In-house

**Automatic Machiner Business** 

Corporate Staff Division

#### ESG Engagements (2)

#### ■ CO<sub>2</sub> emission reduction targets

•FY2030 CO<sub>2</sub> emissions per sales gross unit 50% reduction (compared to FY2013)

•FY2050 CO<sub>2</sub> emissions Actual zero

"Reduction measures"

- Promoting thorough energ conservation
- Expansion of renewable energy
- Utilization of CO2 free energy

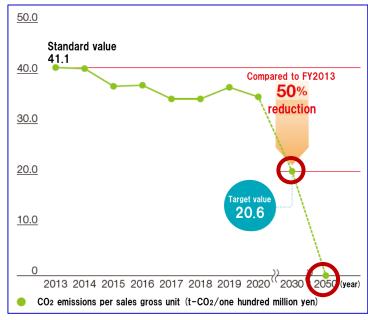

Tout may

Introduction of solar system

Green power

"CO<sub>2</sub> emissions reduction performance and medium and long term targets"

#### Development of products with reduced environmental impact

 We will contribute to the achievement of the SDGs by developing products that are conscious of reducing environmental impact, such as improving customer productivity by extending the service life of equipment and reducing industrial waste.

High durability cylinder

Nitrogen Gas Extraction Unit

Setting Goals and Promoting Sustainability Initiatives

#### [Attention in regard to the handling of this material]

#### Notice about the future's perspective

The earnings outlook described in this document and the future's prediction are expectations judged according to the acquisition of present information available to CKD, and potential risk and uncertainty are present. Therefore, be advised that there is a possibility that the actual achievements will differ greatly from our perspective depending on changes in various factors described for the future.

#### **About processing of the figures**

Totals of the breakdown may not parallel with the total because a fraction less than a unit is rounded up for the mentioned price, and the ratio is the calculated from the yen unit and result rounded up.
