| Cable outer diameter | φ 3.7mm                                 |               |               |               |

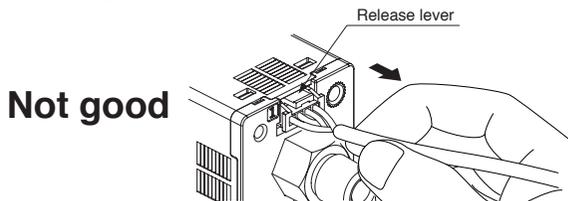

### 3 PRECAUTIONS FOR CONNECTING/DISCONNECTING

#### ● Connecting

- Insert the connector into the receptacle till you hear a 'click'.

#### ● Disconnecting

- Pull out the connector, while depressing the release lever on the connector.
  - The force which can be applied to the cable is 10N or less.
- Do not pull by holding the cable, as this can result in cable disconnection.

Wiring differs depending on a device to be connected. Refer to the instruction manual of the device to be connected for proper wiring.
