Case Study

PAW Series

To transfer heavy workpieces from workbench to conveyor for workpiece removal and attachment from machine tool frontage or in narrow assembly areas.

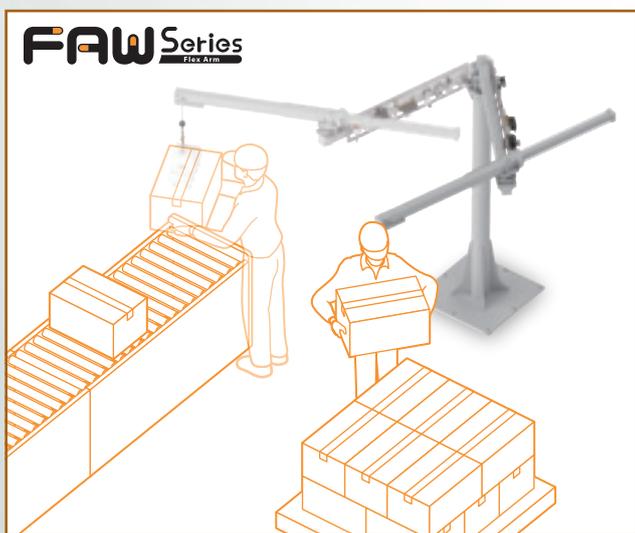

CAW Series

To reduce the burden on shoulders, arms, and wrists during tightening work such as air impact and nutrunners

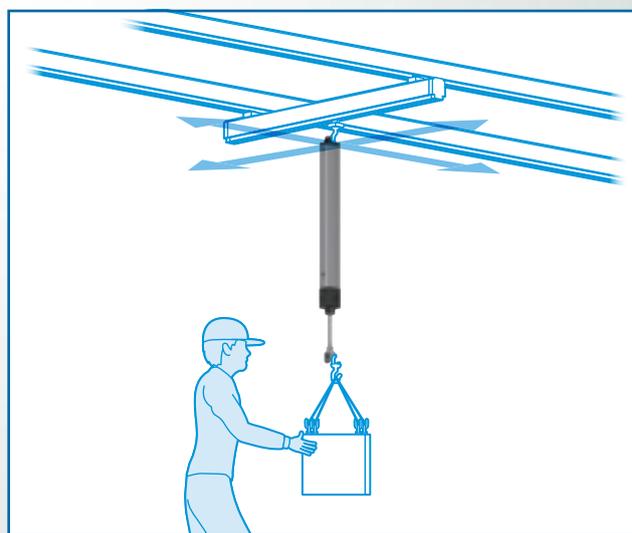

FAW Series

To transfer cardboard boxes and material bags from pallets to a conveyor in a work area with low ceilings.

BBS Series

To transport heavy objects far away in a large work area.
